The Seismic Mitigation Program (SMP) is a subset of the Facility Hardship program that provides for the seismic repair, reconstruction, or replacement of the “most vulnerable” school facilities. SMP projects must meet the following requirements:

- The building is of an eligible Category 2 building type
- The building was originally designed for occupancy by students and staff
- DSA concurs that the building has the potential to collapse either due to ground shaking or due to faulting, liquefaction, or landslides
- Construction contract is signed after May 20, 2006
