\$75 for non-members

Includes dinner & training

**RSVP BY NOVEMBER 8th**

This class explores practices and procedures that may be utilized within your facility to maximize the time spent at work and convert it to "Billable Hours" that exceeds your available time. If we only work at 100% efficiency we have to work longer to make more money. Come learn practices that can allow you to make more money on any given day by working smarter by having a process that works and then working that process.

This class is great for everyone in your shop—incredible information for technicians, service advisors, managers and owners!
