Let's face it, your toughest customer can be the waiter oil change. Not only does the customer have a small budget in mind, but they're sitting there, analyzing your every move. They continually look at the clock and just want to get out of there. What if there was a way for you to double the amount of sales to a waiting oil change? There is! If you follow a step by step process with each waiting oil change every time, you'll guarantee your success. Jeremy has perfected his system over the last 24 years and it works for quick lubes, franchises, independent repair shops, dealerships, and any shop that performs waiting oil changes. This course is guaranteed to increase your bottom line!
