There are only three ways to make more money in your shop:

1. Increase sales
2. Increase gross profit
3. Lower expenses

Of those three, cutting expenses can have the most dramatic effect, because every expense dollar saved goes straight to the bottom line.

Join us this month for our "How to Cut Expenses" roundtable meeting. This open discussion will give you an opportunity to see how other repair shop owners have lowered their own expenses to increase net profit. Since this will be an audience participation meeting, please come prepared with at least two cost-cutting ideas to share with your fellow members. You are sure to come away from this meeting with ideas on how to increase your own bottom line.
