RSVP BY AUG 31st

Labscope is a vital part of the automotive repair process, helping to pinpoint signal glitches in sensors and systems. This presentation will help technicians speed up the diagnostic process by simplifying scope setup, explaining the differences in scopes per manufacturer, as well as demonstrating automotive scope accessories.

Topics include:

- Quick tests
- Voltage Waveforms
- High Current Waveforms
- Low Current Waveforms
- Demystifying AC Coupling
- Scope triggers and Cursors
- Pulse and pressure Transducers
- How to measure ignition and valve timing with a scope
