Join us for the Front Counter Alignment Seminar which includes:

- Basic understanding of alignment angles and their effect on the vehicle
- Interpreting alignment printouts and relating those printouts to symptoms that would appear on the vehicle
- Tips and tricks for relating the need for alignment to the consumer
- Discussion and review of available tools and front counter pieces that can be used to help explain alignment conditions to the consumer
- Discussion and live demonstration of the latest alignment technology
- Overview of how safety systems on today's vehicles will effect the alignment process moving forward

Don't be let out in the ever-changing technology. Join us on Tuesday, December 15!
