

Mystery Quilt

by Joe & Roxie Wood

PIECE #6 (this week's *Mystery Piece!!!*)

This is the same block you made in PIECE #4 – but REVERSED!

Instead of a **color** center with **shirtings** in the four corners, for this set of snowballs you will use your **shirtings** for the center and the **colors** for the four corners.

To make one set of snowball blocks, CUT:

4 – 3 ½" squares from each of the **shirting** fabrics

16 – 1 ½" squares from each **color** fabrics

To make ONE snowball block:

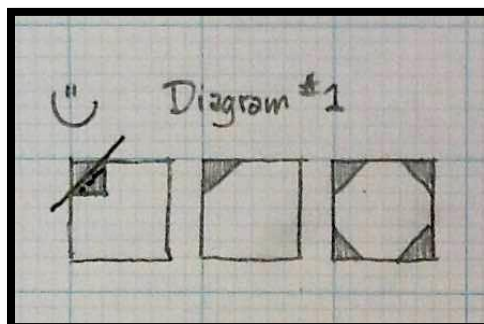

Pair up a 3 ½" square of one **shirting** fabric with 4 – 1 ½" squares of one **color** fabric.

Draw a pencil line from corner to corner on the back of all 4 – 1 ½" **color** fabric squares.

Place one 1 ½" **color** fabric square face-to-face in the corner of a 3 ½" **shirting** fabric square.

Sew directly on the pencil line. Trim ¼" from the seam and press open.

Repeat this on the remaining three corners of your 3 ½" square.

Repeat the process using these same fabrics to make three more snowball blocks – for a total of four identical snowball blocks.

You have now made one set of four snowball blocks.

Make four more sets of snowball blocks – this will make a total of twenty snowball blocks (five sets of four snowball blocks each).

These snowball blocks should measure 3 ½” square.

Once again, save these snowball blocks!

It won't be long until we start assembling our Mystery!!!! :)
