- 1 - 1 ½" x 2" strip of Fabric #3 (above door)**

For WINDOWS, CUT:

HOUSE CONSTRUCTION:

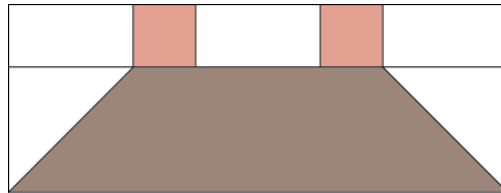

To construct the roof, take the 2 – 2” squares of Background Fabric. Draw a pencil line on the back of the squares from corner to corner. Place a square face-to-face on the left side of your 2” x 6 ½” strip of Roof Fabric (Fabric #1). Sew directly on the pencil line. Cut ¼” from your seam and press open. Repeat on the right side of your roof.

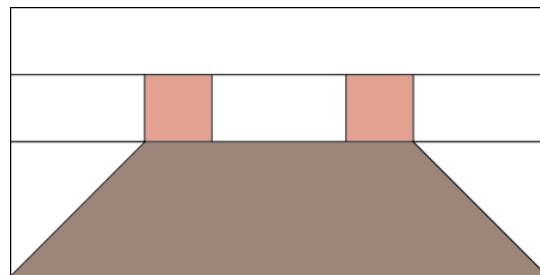

To construct the Chimney Strip of your house, sew a Chimney Fabric (Fabric #2) 1 ¼” square to one of the 3 – 1 ¼” x 2” strips of Background Fabric. Sew another of the 1 ¼” x 2” strips of Fabric #2 to the other side of the 1 ¼” square of Chimney Fabric. Now sew the second 1 ¼” square of Chimney Fabric to the other side of this strip. And, finally sew the last 1 ¼” x 2” strip of Background Fabric to this Chimney Strip.

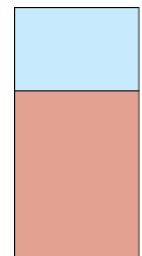

Sew this Chimney Strip to the top of your Roof Strip.

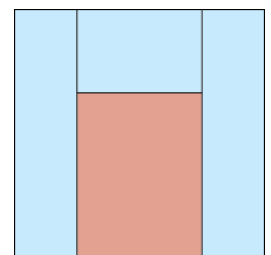

Sew the 1 ¼” x 6 ½” strip of Background Fabric to the top of this strip.

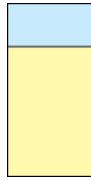

To construct the Door Section, sew the 2” x 2 ½” strip of Door Fabric (Fabric #2) to the 1 ½” x 2” strip of House Fabric (Fabric #3).

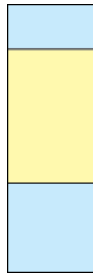

Sew a 1 ¼” x 3 ½” strip of House Fabric (Fabric #3) to BOTH sides of the Door strip. Set aside.

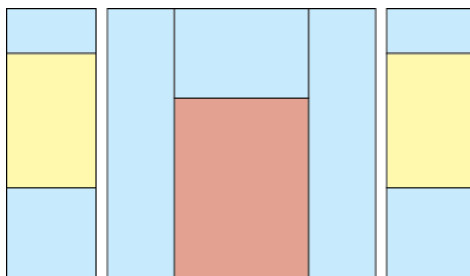

To construct the Window Sections, sew a 1 1/2" x 1" strip of House Fabric to the TOP of both 1 1/2" x 2" Window Fabric strips (Fabric #4).

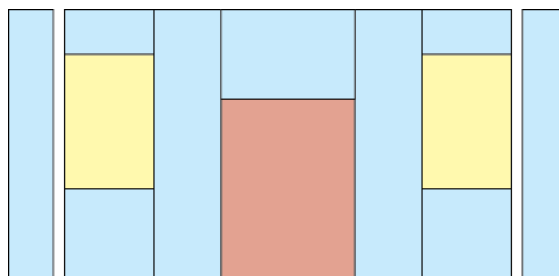

Sew a 1 1/2" square of House Fabric to the BOTTOM of both Window Strips.

Sew a Window Strip to BOTH sides of your DOOR Strip.

Sew a 1" x 3 1/2" strip of House Fabric to BOTH sides of your House Unit.

Sew your House Unit to your Roof Unit.

You have done it!! Congrats!! Make four of these Houses! :)
