Save Time, Reduce Errors with the New PDF Purchase Order Form
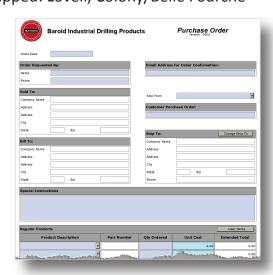

In our continuing effort to provide distinctive service quality to each of our Authorized Retailers, Baroid Industrial Drilling Products' Customer Service Team has developed a new customized approach to place your orders. Introducing the new, easy to use, personalized Baroid IDP PDF Purchase Order form.

Chances are, you've participated in online shopping and you're familiar with the online checkout process. Whether you're purchasing an airline ticket, new apparel or a load of bentonite, there are certain pieces of information that are necessary to finalize your order. The new Baroid IDP PDF Purchase Order form is a great way to make sure your order contains all the necessary and essential information required to get your order out the door accurately and FAST.

Each Purchase Order form is customized to include your customer Sold To, Ship To and Bill To numbers, eliminating a tedious step required for placing an order. The form allows you, the customer, to select the location from which you would like your product shipped: Lovell, Colony/Belle Fourche or Rosenberg. Once a shipping location is chosen, you may select the desired product from a prepopulated drop down menu, and then enter the quantity required. The form will then automatically calculate the remaining information for you. Once all necessary information has been entered into the form, simply email or fax the completed form to the Baroid IDP Customer Service team.

Distinctive service quality is something we strive for daily at Baroid Industrial Drilling Products. Our goal is to save your valuable time and provide a hassle free ordering experience by providing the option to utilize a personalized Purchase Order form.

To request your personalized PDF Purchase Order form, please email idporders@halliburton.com or call the Baroid IDP Customer Service Department at +1.281.871.4613.
