

68th Annual Meeting **ATTENDEE PROGRAM**

December 1 - 5, 2015
Hyatt Regency Embarcadero
San Francisco, California

CSP 2015 Annual Meeting

December 1 - December 5, 2015

Welcome Message

Dear Colleagues in Pathology:

On behalf of the California Society of Pathologists (CSP), I am proud to present our 68th Annual Meeting, "Seminars in Pathology." The 2015 Annual Meeting will be held in beautiful San Francisco, where distinguished faculty from around the country will gather to participate in this outstanding educational program. Join pathologists from California and across the country for what promises to be an exceptional program which will be held at the Hyatt Regency Embarcadero from December 1 -December 5, 2015.

The courses, tutorials and lectures are planned to present an array of topics that are relevant for today's practicing pathologists, as well as introduce important new concepts that can be applied to your daily practice. Courses will provide opportunities to receive Continuing Medical Education (CME) credits and some will provide Self Assessment Module credit (SAMs).

Some of the highlights of this year's program include a presentation by Dr. Eric Glassy, who will provide a practical perspective on the future of pathology and social media during the Special Lecture on Friday, December 4. Also on December 4, the Clinical Pathology Lecture features Dr. Ramy Aranout who will present on Utilization in Clinical Practice. Remember to register early to reserve your seat at the highly sought-after video tutorials where space is limited.

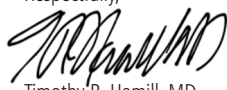

Please join us for what promises to be another interesting, informative and meaningful meeting --designed to enhance your practice by providing seminars in gastrointestinal pathology, endometrioid carcinoma, pancreatico-biliary disease, new leukemia classification, and atypical melanocytic proliferations - plus many more topics within microscope tutorials.

The California Society of Pathologists serves you, the practicing pathologist, and is member supported in all of its activities. The CSP provides the means for pathologists to address the issues that affect our professional lives. The organization appreciates the benefits of high quality continuing medical education and supports programs to fill that need.

In addition, the CSP recognizes the importance of providing a forum for evolving practice management perspectives and to communicate challenging ideas that protect and reinforce our specialty. While there may be other venues for those activities, the advocacy work related to governmental regulations that affect the way we practice pathology is unique to the CSP, and is crucial to our profession. The mechanism exists to accomplish these objectives through membership in the California Society of Pathologists. With your participation and support, pathology will flourish at the heart of medical practice.

Look for more information regarding the 2015 Annual Meeting and CSP membership on our website: www.calpath.org. I look forward to seeing you in San Francisco!

Respectfully,

Timothy R. Hamill, MD
President

Board of Directors & Education Committee

BOARD OF DIRECTORS

Officers

President..... Timothy R. Hamill, MD
Vice President James B. Carry, MD
Secretary/Treasurer David Slater, MD
Past President Ellen Klapper, MD

Directors

Kim Dickinson, MD Melvin Hoshiko, MD
David B. Kaminsky, MD Luke Perkocha, MD, MBA
Balaram Puligandla, MD Derek Marsee, MD
Gerald Weiss, MD David Park, MD, PhD
Kristie White, MD

RESIDENT REPRESENTATIVES

Brent Larson, D.O. Ryanne Brown, MD

EDUCATION COMMITTEE

Shikha Bose, MD Charles Lassman, MD
Teri Longacre, MD Alfred Lui, MD
Laura Tabatabai, MD Donna Hansel, MD, PhD
Balaram Puligandla, MD, Chair

EXECUTIVE DIRECTOR Robert Achermann, JD

CSP 2015 Program Schedule

December 1 - December 5, 2015

Tuesday, December 1, 2015

4:00 – 6:00 pm

Registration

Grand Foyer

5:30 – 7:00 pm

Video Tutorials (1.5 hours CME, max 28 registrants)

1) Inflammatory and Infectious Lesions of the Gut: Is it a Bug or is it a Drug?

Seacliff A

Joel Greenson, MD

Objectives:

- Be able to recognize small bowel pathogens such as Giardia, Cyclospora, Isospora, and Cryptosporidia;
- Be familiar with causes of increased intraepithelial lymphocytes in the small bowel; and
- Recognize unusual patterns of inflammation that suggest drug-induced injury to the gut.

2) Problematic Differential Diagnoses in Bladder Neoplasia

Seacliff B

Donna Hansel, MD, PhD

Objectives:

- Distinguish benign mimickers of bladder cancer from neoplastic processes;
- Recognize alterations in bladder neoplasia classifications for 2016; and
- Identify appropriate applications of immunohistochemistry in diagnosis of bladder neoplasia.

Wednesday, December 2, 2015

7:30 am – 5:30 pm

Registration

Grand Foyer

7:30 am – 8:30 am

Breakfast with Exhibitors

Grand Ballroom BC

7:30 am – 3:30 pm

Exhibit Hall open

Grand Ballroom BC

8:30 am – Noon

Short Course (3 hours CME)

Grand Ballroom A

3) Diagnostic Difficulties in GI Pathology: New Twists on Persistent Problems (Can't we just sequence something?)

Joel Greenson, MD and Rhonda Yantiss, MD

Objectives:

- Know the differential diagnosis of increased intraepithelial lymphocytes in small bowel biopsies;
- Be familiar with olmesartan enteropathy and autoimmune enteropathy;
- Understand the pathologic complications of celiac disease;
- Be able to distinguish hyperplastic polyps from sessile serrated adenomas/polyps;
- Be able to distinguish invasion from pseudoinvasion;
- How to deal with malignant colon polyps;
- Be familiar with the various familial cancer syndromes that lead to GI tract neoplasia;
- Know the histologic clues that can help identify familial cancer syndromes;
- Understand the immunohistochemical and molecular work up for Lynch syndrome;
- Be able to distinguish T3 from T4a colon cancers;
- Be able to distinguish extra nodal tumor deposits from positive lymph nodes; and
- Understand how to use the N1c staging designation.

10:00 – 10:30 am

Morning Break

Grand Ballroom BC

Noon – 1:30 pm

Lunch

1:30 – 5:00pm

Short Course (3 hours CME)

Grand Ballroom A

4) Challenges in Diagnosis, Prognostication and Management of Precursor Lesions and Carcinoma of the Endometrium: Perspectives of a Gynecologic Oncologist and Two Gynecologic Pathologists

Richard Zaino, MD; David G. Mutch, MD and Marisa Nucci, MD

Objectives:

- Understand the current classification of precursors of endometrioid carcinoma of the endometrium and its rationale;
- Recognize criteria important for prognostication and staging of carcinoma;
- Understand the common artifacts that mimic characteristics of biologic aggressiveness;
- Recognize the features of endometrial carcinoma with predictably low reproducibility; and
- Be able to provide the information that is essential to gynecologic oncologists for clinical management.

Wednesday, December 2, 2015 cont.

3:00 – 3:30 pm

5:00 – 6:30 pm

5:30 – 7:00 pm

Afternoon Break

Welcome Reception with Exhibitors

Video Tutorials (1.5 hours CME, max 28 registrants)

Grand Ballroom BC

Grand Ballroom BC

5) Update on Salivary Gland Tumors: Morphology & Molecular Profiling

Seacliff A

Christina Kong, MD

Objectives:

- Identify potential pitfalls in salivary gland cytology;
- Discuss cytologic features for recently described entity of mammary analogue secretory carcinoma (MASC);
- Review morphology and molecular profile of other translocation-associated salivary gland tumors: adenoid cystic carcinoma, mucoepidermoid carcinoma, hyalinizing clear cell carcinoma, and pleomorphic adenoma; and
- Construct a framework for performing molecular studies on cytology specimens.

6) Challenging Cases from a Gynecologic Pathology Consultation Practice

Seacliff B

Marisa Rose Nucci, MD

Objectives:

- Apply diagnostic criteria for common and uncommon gynecologic lesions;
- Recognize common diagnostic pitfalls in the diagnosis of gynecologic neoplasms; and
- Understand the use and limitations of special studies in gynecologic pathology.

7) Common Challenging Diagnoses in Soft Tissue Pathology

Seacliff C

Andrew E. Horvai, MD, PhD

Objectives:

- Formulate a differential diagnosis of selected borderline, “dedifferentiated” and pseudosarcomatous soft tissue tumors;
- Efficiently incorporate ancillary diagnostic studies in the workup of the above entities; and
- Understand the controversies in classifying recently described soft tissue sarcomas.

8) Approach to Biopsy Interpretation of Autoimmune Liver Disease

Seacliff D

Charles Lassman, MD, PhD

Objectives:

- Understand the importance of serum and biochemical studies and clinical history in diagnosing autoimmune liver disease;
- Recognize pitfalls in interpreting clinical information;
- Be able to formulate questions for the clinician which will help you be able to solidify your diagnosis;
- Recognize histologic findings that allow for diagnosis of chronic biliary injury; and
- Be able to recommend additional studies to clinicians.

Thursday, December 3, 2014

7:30 am – 5:30 pm

7:30 am – 8:30 am

7:30 am – 3:30 pm

8:30 am – Noon

Registration Grand

Breakfast with Exhibitors

Exhibit Hall open

Grand Ballroom BC

Grand Ballroom A

9) The Papanicolaou Society of Cytopathology Guidelines for Diagnostic Techniques, Diagnostic Categories and Diagnostic Criteria for Pancreatico-Biliary Disease

Lester Layfield, MD and Douglas Adler, MD

Objectives:

- List pre-biopsy testing for patients with pancreatic lesions;
- Understand imaging modalities useful in investigating duct strictures and pancreatic cysts and masses;
- Become familiar with the Sendai guidelines for management of pancreatic cysts;
- Become familiar with endoscopic techniques for evaluation of pancreatic lesions;

Thursday, December 3, 2015 cont.

- List the diagnostic categories of the PSC pancreatic guidelines;
- Discuss the methods for handling samples from pancreatic cysts; and
- Discuss the utility of ancillary testing of cytology samples.

10:00 – 10:30 am

Morning Break

Grand Ballroom BC

Noon – 1:30 pm

Lunch

1:30 – 5:00pm

Short Course (3 hours CME)

Grand Ballroom A

10) Leukemia Classification 2016: What, When, “WHO”

Kathryn Foucar, MD

Objectives:

- Define the pathologists’ expanding role in disease classification;
- Discuss new WHO 2016 classification criteria;
- Review the strengths and weaknesses of WHO classification; and
- Understand how evidence-based data and “personalized medicine” interfaces with classification.

3:00 – 3:30 pm Afternoon Break Grand Ballroom BC

5:30 – 7:00 pm Video Tutorials (1.5 hours CME, max 28 registrants)

11) Practical Tips for Utilizing Proposed WHO 2016

Kathryn Foucar, MD

Objectives:

- Develop strategies to incorporate WHO 2016 proposed revisions into clinical practice;
- Recognize morphologic clues to specific neoplasms; and
- Recognize morphologic clues to diagnostic pitfalls.

Seacliff A

12) Practical Approach to Inflammatory Skin Disease and Cutaneous Adnexal Neoplasms

Chandra Smart, MD and Jessica Chan, MD

Objectives:

- Recognize common inflammatory skin reaction patterns;
- Identify the differential diagnosis for major reaction patterns in inflammatory skin disease;
- Recognize pitfalls of inflammatory skin disease;
- Identify common cutaneous adnexal neoplasms;
- Recognize pitfalls of cutaneous adnexal neoplasms; and
- Understand the utility of immunohistochemistry for the diagnosis of cutaneous adnexal neoplasms.

Seacliff B

13) What’s New from the WHO in Brain Tumor Classification: Preview of 2016 through Illustrative Cases

Hannes Vogel, MD

Objectives:

- Highlight the changes anticipated in the 2016 WHO classification of CNS tumors;
- Provide illustrative cases in which molecular testing is of diagnostic importance in gliomas, CNS embryonal tumors, and others; and
- Formulate diagnostic algorithms to include radiographic and molecular data in common brain tumors.

Seacliff C

14) Review of Interesting and Problematic Oral & Head and Neck Pathology

Richard C.K. Jordan, MD

Objectives:

- Examine and establish the microscopic diagnosis of oral and head & neck lesions and
- Understand the differential diagnosis of typical and uncommon oral lesions.

Seacliff D

Friday, December 4, 2015

7:30 am – 5:30 pm

7:30 am – 8:30 am

7:30 am – 3:30 pm

8:30 am – Noon

Registration

Breakfast with Exhibitors

Exhibit Hall open

Short Course (3 hours CME)

Grand Foyer

Grand Ballroom BC

Grand Ballroom BC

Grand Ballroom A

15) Atypical Melanocytic Proliferations: Nevoid Melanoma and Atypical Lentiginous Melanocytic Proliferations & Adnexal Tumors of Skin

Scott Binder, MD; and Chandra Smart, MD

Objectives:

- Recognize the histologic diagnostic criteria necessary for the correct diagnosis of "nevoid melanoma;"
- To learn the appropriate microscopic differential diagnoses of "nevoid melanoma", and to learn the criteria which may aid in distinguishing between the various melanocytic lesions.;
- Learn ancillary studies which may be used to aid in the correct diagnosis of "nevoid melanoma;"
- Learn the histologic diagnostic criteria necessary to distinguish high-grade from low-grade atypical lentiginous melanocytic proliferations;
- Learn how ancillary studies may aid in the correct diagnosis of atypical lentiginous melanocytic proliferations;
- Learn appropriate therapeutic recommendations for the treatment of atypical lentiginous melanocytic proliferations;
- Identify common cutaneous adnexal neoplasms;
- Recognize pitfalls of cutaneous adnexal neoplasms;
- Understand the utility of immunohistochemistry as an aid in the diagnosis of cutaneous adnexal neoplasms.

Noon – 1:30 pm

Lunch

1:30 – 2:30 pm

Special Lecture (1 hour CME)

Grand Ballroom A

16) Riffs on FuturePath: The Fall of Paper, the Rise of Smarties, and the Quest for Selfies

Eric Glassy, MD

#pathologists — forget driverless cars; let's talk about driverless microscopes...and wearable laboratories. The future may well be in our jeans. Explore the trends that conspire to help us put the "more" back in morphology. Learn how interfaces, connectivity, consumers, web-of-things, integration, augmented reality, mobile access, and globalization are changing our profession and re-shaping our pathology lives. The future is now and entropy isn't what it used to be. Join us as we create a paracosm and search for the One App to rule them all.

Objectives:

- Embrace the future of pathology;
- Understand the seismic shifts in the pathology workflow paradigm;
- Create a listicle of the trends that are shaping our practice;
- Use our natural creativity to color outside the lines.

2:40 pm – 3:20 pm

Clinical Pathology Lecture (1 hour CME)

Grand Ballroom A

17) The Landscape of Inappropriate Laboratory Testing Overuse and Under-use by the Numbers

Ramy Aranout, MD

Objectives:

- Describe the relative prevalence of over- and underutilization in laboratory testing;
- Describe the relative breakdown of over-utilization into initial vs. repeat testing and high- vs. low-volume testing;
- Describe the difference between subjective and objective criteria for assessing appropriateness of laboratory testing;
- Describe the difference between restrictive and permissive criteria for assessing appropriateness of laboratory testing; and
- Describe how cost-effectiveness of laboratory testing impacts cost-effectiveness of overall care.

Friday, December 4, 2015 cont.

3:30 – 5:00 pm

Video Tutorials (1.5 hours CME, max 28 registrants)

18) Radiologic-Pathologic Correlation in Breast Pathology

Seacliff A

Laura Collins, MD

Objectives:

- Understand the diagnostic features and clinical significance of a variety of breast lesions with particular reference to the importance of radiologic pathologic correlation in core needle biopsy specimens;
- Develop appropriate differential diagnoses of several commonly encountered problems in breast pathology in core needle biopsy specimens; and
- Appreciate the uses and limitations of immunohistochemistry in solving diagnostic problems in breast core needle biopsy specimens.

19) Diagnostic Challenges in Daily Practice of Pulmonary Pathology

Seacliff B

Jeffrey Myers, MD

Objectives:

- Accurately diagnose usual interstitial pneumonia on the basis of histologic findings in surgical lung biopsies;
- Distinguish hypersensitivity pneumonia from usual interstitial pneumonia on the basis of histologic findings in surgical lung biopsies;
- Accurately diagnose Langerhans cell histiocytosis in surgical lung biopsies;
- Accurately diagnose lymphangioleiomyomatosis in surgical lung biopsies;
- Accurately diagnose sclerosing hemangiomas in surgical lung specimens; and
- Distinguish benign pleural abnormalities from malignant mesothelioma.

20) New Lesions out of Old Ones: Smaller and Smaller

Seacliff C

Lester Thompson, MD

Objectives:

- Learn diagnostic criteria for selected pathologic entities in head and neck pathology;
- Incorporate clinical findings into developing a differential diagnosis in selected entities in head and neck pathology; and
- Apply appropriate ancillary tests utilized in the evaluation of selected entities in head and neck pathology.

21) Update in Pathology Informatics for the Practicing Pathologist

Seacliff D

Ulysses J. Balis, MD

Objectives:

- Gain familiarity with current trends in digital pathology workflow and image-based analytics, from the perspective of salient diagnostic use-cases and candidate enhanced workflow models;
- Gain familiarity with current trends in the emerging field of computational pathology (e.g. “big data” as applied to pathology) and the impact that such technologies and methods will collectively have on all aspects of the practice of pathology; and
- Gain familiarity with the rapidly-expanding portfolio of real-time tracking technologies such as 2D barcoding and RFID, and how expanded and rational use of these solutions can enhance patient safety while similarly elevating productivity.

3:30 – 5:30 pm

CSP Business Meeting

Grand Ballroom A

22) CSP Business Meeting

Saturday, December 5, 2015

8:30 am – Noon

Case Seminar (3 hours CME)

Grand Ballroom A

23) Diagnostic Problems in Surgical Pathology

Scott Binder, MD; Laura Collins, MD; Joel Greenson, MD; Lester Layfield, MD; Jeffrey Myers, MD; and Lester Thompson, MD.

Moderator: Charles Lassman, MD

Objectives:

- Through the discussion of six problem cases the registrants will become familiar with strategies that experts employ in order to work through challenging case materials;
- Review recent developments and changes in our understanding of the pathophysiology of these problems areas; and
- Review the use of ancillary tests and special stains used in the differential diagnosis of these lesions.

CALIFORNIA TUMOR TISSUE REGISTRY

Proudly Announces the 139th Semi-Annual Pathology Cancer Seminar:

"Updates in the Changing World of Breast Pathology"

Laura C. Collins, MD
&
Stuart J. Schnitt, MD

December 6, 2015
8:30 a.m. – 4:45 p.m.

Hyatt Regency San Francisco
5 Embarcadero Center
San Francisco, California, 94111
Phone: (415) 788-1234

Seminar Objectives: At the conclusion of this seminar, attendees will be able to:

1. To discuss the diagnostic features and differential diagnosis of several commonly encountered problems in breast pathology.
2. To describe the diagnostic features and clinical significance of a variety of breast lesions with particular reference to the implications of these diagnoses in core needle biopsy specimens.
3. To discuss the molecular classification of breast cancer and the uses and limitations of immunohistochemical surrogates to determine molecular subtype.
4. To describe the current role of ancillary molecular testing in breast pathology.

Materials: ("Attendance Only" includes items 1 and 2)

1. 6 hour lecture (Cover seminar objectives, correlate clinical histories, discuss the role of special studies in diagnosis, therapy, and counseling, and project photographs of the study cases and other illustrative materials)
2. Comprehensive syllabus that includes diagnoses, discussion, and appropriate references from pertinent medical literature
3. Glass slides of representative tumors

CME/SAMs applies only to the day of the seminar. Full Package can earn up to 10 hrs CME and/or SAM, Attendance only can earn up to 6 hrs CME/SAM. This activity is approved for a maximum of 10 SAM credits.
Accreditation Statement: Loma Linda School of Medicine is accredited by the Accreditation Council for Continuing medical education for physicians. Loma Linda University School of Medicine designates this live activity and enduring material for a maximum of 10 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. **Disclosure Statement:** This program has been planned and implemented in accordance with ACCME essentials and standards. The Loma Linda School of Medicine Office of Continuing Medical Education relies on its CME faculty to provide program content that is free of commercial bias. Therefore, in accordance with ACCME standards, any faculty and/or provider industry relationships will be disclosed and resolved.

PRACTICING PATHOLOGIST	RESIDENCY TEACHING PROGRAM	RETIRED PATHOLOGIST	RESIDENT / FELLOW
Current Subscribing Member, Full Package \$350.00	Full Package \$260.00	Full Package \$240.00	Full Package \$210.00
Non-Subscribing Member, Full Package \$370.00			
Attendance Only \$230.00	Attendance Only \$230.00	Attendance Only \$230.00	Attendance Only* FREE

* With a letter verifying residency/fellowship status

** For orders outside the United States of America, please add \$40.00

CSP 2015 Annual Meeting

December 1 - December 5, 2015

FACULTY

Douglas Adler, MD

Ann Arbor, MI
Associate Professor in the Division of Gastroenterology and Hepatology
Department of Internal Medicine
University of Utah School of Medicine
Investigator and Director of Therapeutic Endoscopy at Huntsman Cancer Institute
University of Utah School of Medicine
Salt Lake City, UT

Ramy Aranout, MD, DPhil

Assistant Professor of Pathology at
Beth Israel Deaconess Medical Center (BIDMC) and Harvard Medical School Associate
Director of the Clinical Microbiology Laboratories at BIDMC
Co-Founder of the BIDMC Department of Pathology's Genomic Medicine Initiative
Harvard Medical School
Boston, MA

Ulysses J. Balis, MD

Professor of Pathology
Director of Clinical Informatics,
Co-Director of Division of Pathology Informatics
Department of Computational Medicine and Bioinformatics
University of Michigan Medical School
Ann Arbor, MI

Scott W. Binder, MD

Director, Pathology Clinical Services
Chief of Dermatopathology
Senior Vice Chair
Department of Pathology and Laboratory Medicine
David Geffen School of Medicine
University of California, Los Angeles
Los Angeles, CA

Jessica Chan, MD

Department of Pathology
Kaiser Permanente, Oakland Medical Center
Oakland, CA

Laura C. Collins, MD

Associate Director, Division of
Anatomic Pathology,
Beth Israel Deaconess Medical Center,
Boston, MA

Kathryn Foucar, MD

Professor, Department of Pathology
University of New Mexico Health Sciences Center
Albuquerque, NM

Eric Glassy, MD

Medical Director at Pathology, Inc. and
San Pedro Peninsula Hospital. He is Board certified in
Anatomic and Clinical Pathology with a specific interest in
Hematopathology
and Information Technology.

Joel K. Greenson, MD

Professor, Department of Pathology
University of Michigan
Ann Arbor, MI

Donna Hansel, MD, PhD

Director and Professor of Anatomic Pathology
University of California, San Diego
San Diego, CA

Andrew E. Horvai, MD, PhD

Clinical Professor, Associate Director
of Surgical Pathology, Medical Director of Histopathology
Laboratory, Departments
of Pathology and Laboratory Medicine
University of California, San Francisco
San Francisco, CA

Richard C.K. Jordan, DDS, PhD, FRCPath

Professor, Dept. of Orofacial Sciences,
School of Dentistry
Professor, Department of Pathology,
School of Medicine
Chair, Division of Oral Pathology,
Medicine & Radiology
Vice Chair, Department of Orofacial Sciences
University of California, San Francisco
San Francisco, CA

Christina Kong, MD

Associate Professor, Department of Pathology
Director of Cytopathology Service
& Cytopathology Fellowship
Stanford University
Stanford, CA

Charles R. Lassman, MD

Professor of Pathology
Vice-Chair for Clinical Education
Geffen School of Medicine at UCLA
Los Angeles, CA

Lester J. Layfield, MD

Professor and Chair
Department of Pathology and
Anatomical Sciences
School of Medicine
University of Missouri
Columbia, MO

David G. Mutch, MD

Ira C. and Judith Gall Professor of Obstetrics
and Gynecology
Vice Chairman of Gynecology and
Director of the Division of Gynecologic Oncology at
Washington University School of Medicine
St. Louis, MO

Jeffrey L. Myers, MD

A. James French Professor of
Diagnostic Pathology
Vice Chair for Clinical Affairs and Quality
Director, Divisions of Anatomic Pathology
& MLabs
The University of Michigan, Department of Pathology
Ann Arbor, MI

Marisa Rose Nucci, MD

Associate Professor, Department of Pathology,
Harvard Medical School
Assistant Professor, Pathology,
Brigham And Women's Hospital
Boston, MA

Arie Perry, MD

Professor of Pathology and
Neurological Surgery
Director of Neuropathology and
Neuropathology Fellowship Program
Department of Pathology, Division of Neuropathology
University of California, San Francisco
San Francisco, CA

Chandra N. Smart, MD

Assistant Professor, Olympia Medical Center Pathology
Department
Pathology and Laboratory Medicine
Surgical Pathology
Dermatopathology
David Geffen School of Medicine
University of California, Los Angeles
Los Angeles, CA

Staff Pathologist
Department of Pathology
Woodland Hills Medical Center
Kaiser Permanente
Woodland Hills, CA

Hannes Vogel, MD

Director of Neuropathology
Stanford University Medical Center
Stanford, CA

Rhonda Yantiss, MD

Professor of Pathology and Laboratory Medicine
Weill Cornell Medical College
Attending Pathologist
NewYork-Presbyterian Hospital
New York, NY

Richard J. Zaino, M.D.

Professor, Department of Pathology
Penn State University College of Medicine
Hershey, PA

CONTINUING MEDICAL EDUCATION

Accreditation:

The California Society of Pathologists (CSP) is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. The CSP takes responsibility for the content, quality and scientific integrity of this CME activity.

Credit Designation:

The CSP designates this educational activity for a maximum of **26 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the **CMA Certification in Continuing Medical Education**.

CSP 2015 Program Schedule

December 1 - December 5, 2015

2015 Registration Form
