Seminar fee: \$40.00

For: EE professionals, classroom science teachers, after-school/youth/outdoor program leaders, non-formal educators and AEA science consultants

To register contact Linda at lowaEE@outlook.com

How will NGSS Affect you!

It is anticipated that Iowa will soon adopt the Next Generation Science Standards. How will our current environmental education programs and resources be affected by these standards?

Join ICEC for a day dedicated to dialoguing about how ICEC and other environmental education groups and programs can help Iowa's K-12 teachers implement today's new teaching requirements.

- Introduction to the NGSS standards - development process, framework, and architecture.
- The 7 Conceptual Shifts between NGSS and previous standards.
- Lunch
- Join a working group to discuss how one NGSS topic area relates to your EE goals.
- Share Session - Working Groups share their ideas for first steps toward implementation.
