Muskegon Image – Myth vs. Reality

Please join us to learn more about the renewed effort to create a positive image for the Muskegon Lakeshore. In conjunction with AH Fest! (Arts and Humanities Festival) and this year’s topic of “Myth vs. Reality,” the community dialogue will explore the internal and external perceptions of Muskegon - both the myths and realities. The meeting will also discuss the reality behind the WATCH MUSKEGON image campaign. This event will be interactive and we encourage people to bring their thoughts on Muskegon’s image and ideas on what individuals/organizations can do to be part of the positive movement.
