INSPIRE HER MIND

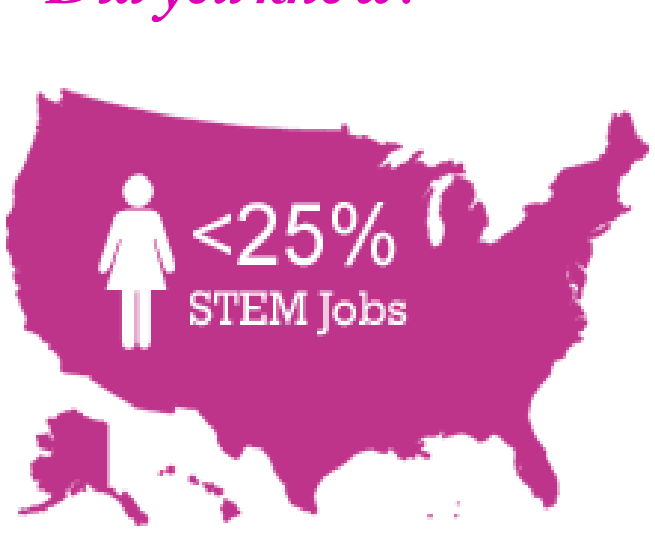

STEM HACKATHON

YOU ARE INVITED!

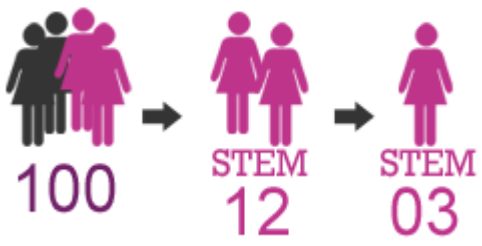

Saturday, October 10, 2015
California State University – Channel Islands
9am-1PM

Join 40 young women (ages 12-18) and adult role models to work together to encourage more girls to get involved in STEM/STEAM career fields.

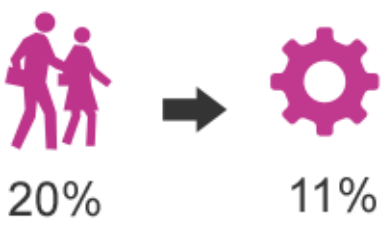

Did you know?

Although women fill close to half of all jobs in the U.S. economy, they hold less than 25 percent of STEM jobs.

Of 100 female bachelor students, 12 graduate with a STEM major but only 3 continue to work in STEM fields 10 years after graduation.

Women comprise more than 20% of engineering school graduates, yet only 11% of practicing engineers are women

74% of STEM workers are male. Only 26% are female.
