

Atlantic Report

I hope all of you are enjoying your spring across the country, and are starting to ramp up staff and production for the upcoming season. Here in Atlantic Canada we have experienced one of the worst winters in history. So needless to say I'm sitting in my office hoping warm temperatures arrive soon, but still looking at 3-4 feet of snow on the entire course. Talking to a few supers around and discussing plans of attack, guys with the equipment are removing snow from green sites and breaking trails to access the course to get some of their work completed.

I wish I had eye popping news but I don't! Lots of talk about major projects by Irving and hopefully it happens to bring back the hordes of Maritimers that have migrated west. I'm optimistic regarding this season. I know people have been beat down by winter and when the nice weather returns I hope they come in droves.

I wish all of you a great start and hope that life treats you all very well. Stay positive and enjoy what life throws at you just remember to bob & weave

Thank you

Kendall Costain
