

SASKATCHEWAN REPORT
PIERRE VEZEAU, AGS
SASKATCHEWAN DIRECTOR

Spring in Saskatchewan has felt more like summer. Many areas are experiencing July like weather in the beginning of May, with many places breaking record high temperatures. Having said that, word is, golf courses across the province are in very good condition already. The STA Board of Directors met in April and with the unfortunate passing of Don Campbell, a new executive director would need to be hired. It was decided that, on an interim bases Doug Campbell would assume the executive director role with Kim Larson handling the administrative duties. A big thank you to them for taking this on.

Congratulation goes out to Bobbie Currie of the TS&M Woodlawn Golf Club in Estevan on achieving his AGS designation this spring. The next upcoming event will be the summer field day held again at the Willows in June. I hope to see many there. With the start we seem to be having, summer for most should be pretty good !
