

Student Internship Program Interest Form

What is the Student Internship Program?

The Arlington Chamber of Commerce is working with the Arlington Independent School District (AISD) to secure at least 100 new internship opportunities for the 2016-2017 school year, with the first placements in September, 2016. The internships will benefit AISD high school juniors and seniors who wish to have a learning experience in entry level and middle skill jobs. The internship opportunity can be made available either as paid or unpaid. Students will have the ability, in most cases, to work up to 6-8 hours each week during the school day. The goal of the program is to encourage students to explore a career of interest, complete the school year internship, and gain a learning experience of the work environment.

What is the Commitment?

Companies of all size are encouraged to participate.

____ Yes, I am committed to support this initiative between the Arlington ISD and the Arlington Chamber. I pledge to list my organization as one of the locations for an AISD intern.
