LUNAR RECEIVING LABORATORY

• **APOLLO 11 MISSION** •

Monday, September 21 • 6 PM • Victoria Trails Amenity Center

CAN YOU REMEMBER BACK TO JULY 16, 1969?

Blast off, Apollo 11, America is going to the moon! The world watched TV images on July 21 when Neil Armstrong stepped on the moon, "One small step for man, one giant leap for mankind." During these historical events, Rudy Trembl was working for NASA in Houston preparing to receive and process material samples from the moon. He will talk about his experiences in the Lunar Receiving Laboratory wherein the "rock box" was opened on July 26.
