Flying High: CHEP Aerospace Solutions renews ULD management partnership with Air Transat

CHEP Aerospace Solutions, the leading global provider of outsourced ULD (*Unit Load Devices*) pooling and repair solutions, and Air Transat, Canada's leading holiday travel airline, have extended their partnership for a further five years.

Since 2003, CHEP has managed the entire pool of ULDs for Air Transat's growing fleet, including the supply of lightweight ULDs to maximise operational efficiency and sustainability. The continued collaboration will ensure that Air Transat can continue to build their growing network whilst benefitting from CHEP's expertise and flexible service at the overall lowest cost.

CHEP Aerospace Solutions President, Dr. Ludwig Bertsch, believes that CHEP's commitment to customer service and continuous improvement is the key to the ongoing success: "Our global pooling network has significantly increased over the past years which has enabled us to offer more synergies and better solutions to our airline customers. We value the partnership we have built and are pleased to continue our participation in Air Transat's growth and success."

Air Transat is Canada's leading holiday travel airline. Every year, it carries some 3 million passengers to over 60 destinations in 30 countries aboard its fleet of Boeing narrowbody and Airbus widebody jets. The company employs more than 2,500 people. Air Transat is a business unit of Transat A.T. Inc., an integrated international tour operator with more than 60 destination countries and that distributes products in over 50 countries. Air Transat was named Best North American Leisure Airline at the Skytrax annual World Airline Awards, held in June 2015. For further information, please visit www.airtransat.ca.

CHEP Aerospace Solutions, headquartered in Zurich, Switzerland, manages the world's largest independent ULD fleet and owns the largest global network for the maintenance and repair of ULDs and galley carts. The company focuses on the outsourced management and associated services for aviation containers, pallets and inflight food service equipment. CHEP Aerospace Solutions serves over 80 airlines through a network of more than 380 airports, 14 regional offices and 49 certified repair stations, supported by more than 550 colleagues. CHEP Aerospace Solutions is part of Brambles Limited. For further information, please visit www.chep.com/aerospace and www.brambles.com.
