Backyard Poultry

Prospective and beginning small-scale meat and egg producers will gain a general understanding of what it takes to have poultry. Poultry breeds, housing, health, and nutrition for small-scale meat and egg producers will be explored.

- Donna Coffin, UMaine Extension
- Dr. Beth McEvoy, MDACF

Brought to you by University of Maine Cooperative Extension; and the Maine Department of Agriculture, Conservation and Forestry, Animal and Plant Health.

The same program will be at three locations. All programs go from 6 p.m. to 8 p.m. \$10 course fee with \$20 optional course book "Storey's Guide to Raising Chickens." Limited number of partial course fee waivers available.
