

The World's #1 Selling Detoxification System

TOXINS are everywhere! We are living in the most polluted environment in Earth's known history. We are continually inhaling and assimilating residues from petrochemicals, plastics, and pesticides that occupy cell receptor sites and block hormone utilization.

Did You Know...

- More than 95% of cancer is caused by environmental toxicity and diet
Source - Columbia University School of Public Health
- The average city water contains more than 500 chemicals
Source - USA Today
- Multiple studies show that most of us have between 300-800 chemical residues stored in the fat cells of our bodies
- Pesticide residues are detectable in 50-95% of the food consumed in the U.S.

Systems of the Body Affected by Toxins Include...

the immune system, the defense systems, the brain and nervous system, the endocrine system, the muscular system, the skeletal system, the heart and circulatory system, and the blood vessels!
