

Full-Time Analyst Program – Underwriting

About AIG

The American International Group (AIG) serves commercial, institutional, and individual customers in more than 130 countries through one of the most extensive worldwide property-casualty networks of any insurer. AIG employees have the unique opportunity to accelerate their career across the multiple business lines, functions, and regions in which we operate. Strong work ethic, motivation, and talent will ensure your success at AIG, as we provide exceptional opportunities for growth throughout our global business.

Underwriting Division

AIG's underwriters develop insurance solutions that address the exposures of companies and individuals, and embody AIG's tradition of innovation, bringing to market groundbreaking insurance solutions for our changing world. AIG's underwriters help to find insurance solutions for risks from a range of areas, including: aviation, environmental, catastrophic events, high net worth individuals, and boardroom liabilities.

Responsible for handling new business and reviewing and renewing existing books of business, underwriters are fundamental in generating revenue for AIG. Underwriters are tasked with determining the risk of an insured, whether an individual, or company, and appropriately calculating the premium for the requested coverage.

Underwriting Analyst Program Description

Joining the Analyst Program with AIG is a great way to enhance business acumen and to gain insight into the insurance industry. In the full-time program, Analysts will work within a business or function and will gain broad exposure to their particular areas of interest. The program is an exclusive and competitive track for graduates from all degrees and disciplines. Analysts will be exposed to the company's global nature almost immediately; at the start of the program, all global participants will convene for orientation and training.

In addition to the experience acquired on the job, Analysts will participate in global training that will help them learn and become accustomed to and integrate into the culture of AIG. Furthermore, Analysts will receive detailed performance feedback and will experience invaluable networking opportunities with both junior- and senior-level AIG employees across multiple divisions. Considerable emphasis will also be placed on training and development to help build both soft and technical business skills.

Qualifications

Required:

- Minimum grade point average of 3.2 (unofficial transcript required upon application)
- Pursuant of a Bachelor's or Master's degree

Preferred:

AIG seeks candidates who have demonstrated outstanding academic and extracurricular achievement, possess strong analytical, quantitative and interpersonal skills, and are enthusiastic about and committed to the insurance industry. Academic focuses related to risk management and insurance are a plus.
