

First Option Financial GUI Installation Instructions

Step 1: Enter LookSoftware License Code on iSeries (AS400)

1. Enter the following command on the command line and press F4 to prompt.
ADDLICKEY PRDID(0NWLOOK) LICTRM(V10R0) FEATURE(5001)
2. On the "Add License Key Information (ADDLICKEY)" command enter the following parameters; System serial number, License key: Usage limit, and Expiration date from the license keys email.

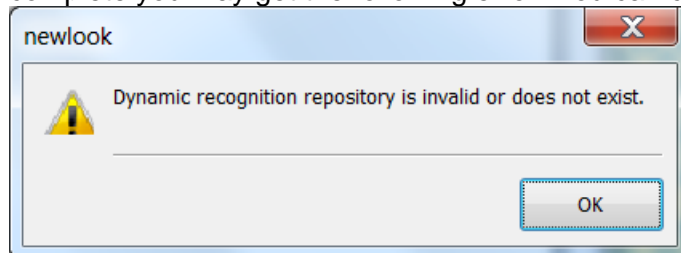

Step2: Install First Option Financial Applications GUI

1. Go the following web site to download the application. You must use the Internet Explorer browser 32 bit version.

<http://www.1stoption.com/FOIGUIDownload/downloadpage.htm>

If prompted click yes to run/install ActiveX. Once the download and install are complete you may get the following error. You can click OK to continue.

2. If this is the first installation of the software on this PC, add entry to your host table for your System i (aka As/400). The host table is located in the **C:\WINDOWS\system32\drivers\etc** directory. The entry should contain the IP address of your System i and a host name of "FOIGUI". Please see example below.

192.168.249.2

FOIGUI

3. Add shortcut for application. Create a shortcut to **C:\FOIgui\@FOIFin\smartframe\SmartFrame.hta** on your desktop. Remember to set the shortcut to run **Windows Minimized**.
 - a. Right Click on **SmartFrame.hta**, select **Copy**.
 - b. Go to your desktop Right Click and select **Paste Shortcut**.
 - c. Rename shortcut to FOI GUI
 - d. You can now double click the icon to start the application.
 - e. You will be prompted to enter you user name and password. This is the same user name and password you are using for the existing Financial Application.
