Code Blue: Emergency Response Planning (9 A.M.-Noon)

Each state has had its share of emergencies. From Ice Storms to Hurricanes, we are all familiar with what the unexpected can bring. This presentation helps child care providers prepare for the next event. Whether it comes from a derailed train carrying potential poisons, extended loss of electric power, or a missing child, being ready has numerous benefits. Through preparation we can help keep everyone safe and return to our normal lives.

Approaching Difficult Conversations with Parents (1:00 P.M. - 4:00 P.M.)

Often we are hesitant to have difficult conversations with parents because we are worried about a negative reaction. We are telling a parent something that they might not want to hear. This presentation includes answers to arduous questions like:

- What is the best way to begin a conversation like this?
- What if the parent reacts defensively?
- Do I interrupt when she is arguing?

Learning and practicing the skills required to successfully present a difficult topic is the focus of this active presentation.
