

***Wheels That Care* Drivers Receive Letters of Appreciation**

The *Wheels That Care* program provides volunteers to drive older adults to essential destinations, like the grocery store, doctor's office, or hairdresser.

It's said that volunteering is good for the soul, and a message of thanks from a thoughtful client can make a good day even better. Here are a few notes Deb Dickinson, Volunteer & Program Manager has received from the clients that use the services of the *Wheels That Care Program*.

"I have needed WTC a number of times, Shepherd's Center Central of KC has always come to my aid. There is never any hesitation on their part to help me -never."

"My aunts could not continue to live independently in their homes if it were not for the Shepherd's Center's Wheels that Care Program and the kindness of the drivers. Thanks."

"Volunteers present themselves as supportive friends. What more could we ask for?"

"It gives me a life. It is as simple as that. I can do what I need to do."

2015 *Wheels That Care*

**26 drivers provided
77 clients with
1,550 hours of transportation**
