I hope everyone had a nice summer!

I'm sure some of you have noticed that your courses are coming due or have already expired on SafetySync. We have enabled the notification emails, so you will now be reminded when a course is coming due or is past due. The email will show your overall compliance and where you are at with your training requirements. You are able to click the shortcut links in the email, which will then take you directly to the SafetySync site for more details.

Listed below is a summary of the Training Standard for LPG and Flammable Liquids. This will assist you with determining how many years each course is valid for.

LPG – Training Standard – SafetySync (Web based)

Training Course	Required By:			
	RMA	RTL	RTM	HBC
