SafetySync compliance required for regional training

By Cheryl Dahlager, Manager, Process Services

ERAC requires that 75% of team members must be 100% compliant in SafetySync in order to participate in ERAC regional training. ERAC added three additional training requirements in January (Canadian National eRail Safe/Canadian Pacific eRail Safe and TDG Certification). Currently, the compliance for the three new training requirements added in January is only 57%. Responders are reminded to upload your certificates to SafetySync to ensure you are compliant.

When responding to an incident, 75% of those responders must be 100% compliant in SafetySync and the remaining 25% of responders cannot work alone and must be accompanied by a team members that is 100% compliant. All Remedial Measures Advisors, Technical Advisors and Response Team Leaders are to be 100% compliant. If you are a Response

Team Leader, you are able to view your team's compliance by clicking on the 'Subordinate' tab on the 'Dashboard' (bottom right hand corner).

Please contact Cheryl Dahlager at cheryl.dahlager@erac.org or Shandie Hildebrand at shandie.hildebrand@erac.org at any time if you are having problems with your log in, password or any of your training modules. We are happy to help!
