The Hamilton-Wenham Library has won an important grant from the federal Institute of Museum and Library Services through the Library Services and Technology Act administered by the Massachusetts Board of Library Commissioners. The \$7,500 grant entitled Science is Everywhere – It's Hands-On at Your Library! will help the library offer Science-Technology-Engineering-Math (STEM) programs for children and teens who are in grades 3-8. Local teachers will be offering a wide variety of programs at the library including CAD workshops (utilizing the Library's 3-D printer), bicycle mechanics, rockets, and electronics. Pick up a brochure to see all the workshops. Grant funds will also be used to purchase new STEM books and DVDs for the library's collections.
