Pledge Payment using your banks free Automatic Bill Pay service

Many church members use their bank's free Bill Pay Service to make automatic monthly pledge payments. Some of the advantages of this payment method are:

- The service is offered entirely free at most banks.
- Saves time – quicker than writing checks.
- No envelopes or stamps needed.
- A simple, one-time set up automatically manages your pledge commitment throughout the year.
- Receiving regular monthly pledge payments helps to maintain a steady church bank balance throughout the year, which in turn simplifies the management of the church's monthly bill payment commitments.
- Unlike PayPal or Credit Card payments the payee (the church) does not incur a processing fee.

Contact your bank if you would like to learn more about this payment method.
