The first 10 minutes at the Cambodian three children dying by the humane living conditions robbed him of empathy, and he came home.

When he left the on the verge of said yesterday, a children's lounge at Louisville and that has altered the scene, himself and different cultures.

"It's going to get any better,"

Do

Continued strong respiratory problems, until they are under control while power in Cambodia is expected to be restored.

"Public relations (the Vietnam come aggressive world watch things to him."

The rain is expected to be heavy in Cambodia.

"They expect to see a lot of people in the next few days."

Dr. David Beyda, at left, is a senior resident in pediatrics at Louisville's Children's Hospital. He recently returned home after spending about three months as a director of a pediatrics unit at a refugee camp in Cambodia.
