# **SUMMER GERIATRICS INTERPROFESSIONAL CONFERENCE**

Arizona Geriatrics Society's annual Summer Conference promises to enlighten and inspire when it comes to one of the most difficult diagnoses in medicine: cancer. Come and hear from national speakers on topics as diverse as survivorship, breast cancer, and nurse navigation, as they help to demystify and provide guidance for you and your patients as they face cancer. Escape the heat to Flagstaff, AZ where the pine trees will provide a welcome accompaniment to thoughtful and thought-provoking presentations. Moreover, networking opportunities with all professions involved in the care of older adults, along with relevant exhibitors, will make this conference one you will not want to miss.

## **Learning objectives:**

- review the many dimensions of palliative care with respect to cancer patients
- integrate genetic factors when screening, diagnosing, and treating patients facing cancer
- recognize the importance of an interprofessional team when it comes to navigating a cancer diagnosis

## **WHO SHOULD ATTEND:**

Physicians, NPs, PAs, Nurses, Social Workers, Case Managers, Therapists, LTC/AL Administrators, Educators and Students – All geriatric healthcare professionals would benefit from attending this conference.
