

# Neighborhood Meeting Notice

Saturday, October 3, 2015

9-10 AM

Via Bellagio Park

**Are you concerned about our water supply?**

The Parks and Recreation Department has taken on several projects to preserve our water supply. One such project planned in La Vigne is converting the water used for the landscaping to recycled water and replacing the turf in the parkway strip on Via Bellagio (between the curb and sidewalk) with native, drought tolerant landscaping around the trees currently in place. This change is estimated to save more than 11.5 million gallons each year... enough to serve a quarter of the homes in La Vigne for a year! There are 3 design options we are considering. Please join us at this neighborhood meeting to express your opinion and find out more about the project.
