

1. Visit: [www.pcchamber.org](http://www.pcchamber.org).

2 Hover on the Membership tab and click on Member Access.

3. Enter the email address associated with your chamber membership, then choose ***need a password***. You will receive an email with a temporary password to log you into your account.

The image shows the 'Member Login' page. On the left, there is a 'Sign in with your email and password' section. It includes two input fields: 'Email' and 'Password', both with a red 'Required' label to their right. Below these fields is a dark 'Sign In' button. Below the sign-in section is a 'Need a password?' section with a radio button and a link that says 'We will email you a new password so you can access your account:'. On the right side of the page, there is a 'Membership' sidebar with a green header. Under the header are links for 'Membership', 'Member Login', 'Join the Chamber', and 'Member Directory'. At the bottom right of the sidebar is a graphic with the text 'Join the Chamber' and an image of a group of people.

4. Once you receive your password, go back and log in using your email address and temporary password.

5. Then have fun creating your account. You can upload your company logo, add photos of your business and even pay your membership online.
