The older I get the faster time seems to pass! This is my third letter to the Membership since being installed as President. I recall the old saying, "The best way to kill time is to work it to death". Your Management Team, Board of Governors and Committees all recognize that ours is not an honorary role; we have real responsibility and we will be held accountable. To that end, we have developed and agreed on 2013 initiatives and Evidences of Success for the COO, the Board and each of the Committees. Following are the top seven initiatives the Board has committed to achieving in 2013:

1. **Membership Satisfaction**
   a. Regularly survey membership to stay abreast of expectations and track progress of same
   b. For each resignation, conduct an exit interview with management team and board member

2. **Grow Membership**
   Each board member will identify and attract at least 2 new members (we currently have approximately 100 openings before hitting our cap of 975).

3. **Strategic Planning**
   Develop agenda, including SWOT analysis followed by a strategic planning session that targets our SWOT findings and the long-term success of VCC

4. **Key Performance Metrics**
   Develop "dash board" of 6 key metrics that will drive our success and behavior, review at each board meeting and track same throughout the year

5. **Improve Membership Marketing**
   Revamp process and materials in support of sponsors and membership director

6. **Participation**
   Increase board and committee attendance at all member functions and required meetings. Track same by individual

7. **Club Improvements**
   Select 2 or 3 projects (Highly Visible) for improving club facilities and complete asap (within the 2013 Capital Budget)

We engaged in a very lively and interactive process in coming up with these initiatives and we believe accomplishment of these initiatives, along with the COO and Committee initiatives, will be foundational in how we run OUR Club going forward.

Enough with the business, this is a County Club after all! Owen and his team are hard at work on the golf course in preparation for growing season and the Men’s opener which is scheduled for April 13th. Mary and her crew continue to improve the already “best in class” fitness center (her latest project is refinishing the floor in the aerobics fitness room). Jeff and Dotty are preparing for another participation record in our tennis leagues and programs (the reconstruction of courts 5 and 6 should help to accommodate the expected record play). Preparations are already underway for the 2013 Swim Season that will kick-off with a band party featuring Chevy 6 (stay tuned to the newsletter and the VCC website for further details).

The family Easter activities began our Spring season at VCC with great success. Book early for the next great upcoming events: Men’s Golf Season Opener and the Par 3 Progressive Dinner. Daily dining in the Pub and Grandview have never been better. Whether it is with your sweetheart, family, friend or future member, VCC is a beautiful choice for dining out.

From our family to yours, we wish you a wonderful spring season. See you at the Club!

Bill Visintainer
The warm mornings have brought an abundance of flowers to life at our clubhouse and immediate grounds. Give yourself an hour holiday, come to the club next week and just walk the clubhouse grounds and enjoy our magnificent views. I guarantee it will give your heart, your attitude and your energy a boost!

Let me share the history of our newly installed wooden porch tables. These tables are recycled from the beams from the tennis clubhouse deck renovation of 1992. We thoughtfully removed the significant cedar beams as part of the demolition and stored them in the golf maintenance building waiting for an opportunity to use them again for you to enjoy. We had one table made last season and placed it in service on the porch where it stood up well to the weather and gave the porch warmth only wood can deliver. We now have eight more of these unique historical wooden tables on the porch with new refinished table bases and chairs with new cushions. The highlight, no pun intended, two gas lights have been installed on the exterior columns to give the porch a warm glow in the evening. Some might even say it’s romantic!

The refinishing of the aerobics floor in Fitness Center is complete. This floor had experienced thousands of jumping, pedaling and stretching members in its twelve years and with this process could last another 12 years. The new weight machine and racks have been ordered and as I write this are being installed. Just a reminder from the Fitness Committee and Fitness Director, Mary Mattingly, please take a moment to sign in, they are tracking the activity level and include it in their monthly report to the Board of Governors.

The two year joint Board, Finance Committee & Management Team software project is in the final stage of installation. We thoughtfully looked at your needs for quicker, clearer and easier communication including online bill review; more informative and attractive website; speedier point of sale transactions to minimize wait times, while providing necessary accounting and cost review capabilities to support the Board and Committees and ongoing commitment to guide our financial future. The software vendor review and selection was made through a competitive bid process, identifying any new or upgraded hardware changes and requirements for our new website, accounting and point of sale terminals.

On a personal note: We hope you have a healthy and active summer – the Carr family.

Robert
