
Economics of Strategy and Managerial Decision Making

September 2015

Page intentionally left blank

Economics of Strategy and Managerial Decision Making, developed for the National Association for Business Economics.

Acknowledgements

NABE extends a special thank you to the members of Economics of Strategy and Managerial Decision Making Working Group whose support and guidance shaped this course.

Jennifer Adams, Manager, Economic Forecasting & Initiative Measurement at Walt Disney Parks & Resorts

Richard A. Brown, Chief Economist, FDIC

Robert C. Fry, Senior Economist, DuPont

Catherine Mann, Professor of Economics, Brandeis University

Christopher Swann, Vice President, Research, Select Greater Philadelphia

Thomas Kevin Swift, Chief Economist & Managing Director, American Chemistry Council

About NABE

The National Association for Business Economics is the premier professional association for business economists and others who use economics in the workplace. Since 1959, NABE has attracted the most prominent figures in economics, business, and academia to its membership with highly-regarded conferences, educational and career development offerings, industry surveys, and its unrivaled networking opportunities. Past presidents of NABE include former Chairman of the Board of Governors for the Federal Reserve System, Alan Greenspan, several former Federal Reserve Governors, and other senior business leaders.

NABE's mission is to provide leadership in the use and understanding of economics.

About the Authors

Peter Zaleski is a Professor of Economics at Villanova University where he has served on the faculty since 1987. He primarily teaches Microeconomics, Economics of Strategy, and Econometrics/Statistics at the undergraduate, MBA, and executive levels. He served as chair of the Economics Department from 2002-2007. He is the author, or co-author, of over twenty scholarly publications. Dr. Zaleski's research has focused on the economics of business strategy in general. His earlier research analyzed the impact of market structure on pricing in the face of increasing input costs. He has also analyzed the impact of market structure on political strategy. Current work involves the financing preferences of startup firms, and the growth of the biotechnology sector.

Mary Kelly is an assistant professor of economics at Villanova University. Her research and teaching interests are in industrial organization and regulation. She has co-authored articles on costs and pricing in the cable industry. In addition to her teaching responsibilities, Dr. Kelly advises economics majors. In 2013, Dr. Kelly was awarded The Christian R. and Mary F. Lindback Award for Outstanding Teaching. Prior to joining the Villanova faculty full-time in 2002, she worked for Verizon Corporation for nearly fourteen years in the functional areas of regulatory compliance, product management, and information services. For the past five years, Dr. Kelly has provided financial consulting services to a mid-sized firm in the Philadelphia metropolitan area.

The Certified Business Economist™ (CBE) is the Certification in Applied Economics and Data Analytics.

The CBE designation is a symbol of distinction that business economists and analysts earn by meeting a prescribed level of achievement. It documents your professional accomplishments, experience, and abilities.

The Curriculum:

Applied Econometrics

This program covers cutting-edge developments in econometric methodologies and quantitative analysis, emphasizing business applications of statistical techniques.

Business Applications of Statistics and Data Analytics

This program in statistics and quantitative methods focuses on practical, applied problems and covering topics as hypothesis testing, tools for working with big data, basic regression methods, and diagnostics.

Economics of Strategy and Managerial Decision Making

This program covers the integration of microeconomic theory with real-world business scenarios to facilitate decision making, problem solving, and planning.

Economic Measurement Seminar

Instructed by leading data users and data providers, this program provides an overview of the sources and characteristics of the most vital economic statistics.

Communication and Presentation Skills for Business Economists and Analysts

A prerequisite for the CBE designation, this program offers the skills needed for effective verbal communication and best practice presentation tools and techniques.

Writing Skills for Business Economists and Analysts

A prerequisite for the CBE designation, this program provides useful tips for effective written communication and identifies common pitfalls experienced by writers in communicating technical information to clients and end users of varying levels of sophistication.

The CBE Examination:

Today's business economists and analysts are expected to master a wide array of disciplines. The CBE examination is based on an advanced body of knowledge, developed and reviewed by leading business economists to ensure that it reflects the most relevant information and core competencies sought by today's top employers.

The CBE Exam is designed to be a comprehensive multiple-choice assessment, testing a candidate's practical and applied knowledge in the following areas:

- Applied Econometrics
- Business Applications of Statistics and Data Analytics
- Economic Measurement
- Economics of Strategy and Managerial Decision Making
- Macroeconomics and Microeconomics

Candidates may choose prepare independently or enroll in NABE's courses if guided learning is preferred. Detailed content outlines will be posted for each subject area and sample test questions will be available.

The Certified Business Economist Requirements*:

- Examination - candidates must pass a comprehensive practical examination.
 - Membership - candidates must be a member in good standing with NABE.
 - Experience - candidates must have two years of work experience in applied business economics or in a related field.
 - Education - candidates must attain at least a four-year degree.
 - Curriculum Requirements - candidates must complete NABE's Communication and Presentation Skills for Business Economists and Writing Skills for Business Economists certificate courses or courses deemed equivalent by NABE.
 - Ethics - candidates must sign and adhere to the NABE Code of Ethics.
- Continuing Education/renewal - designees are required to earn 30 hours of continuing education every two years to renew the certification. A renewal fee applies.

Economics of Strategy and Managerial Decision Making

Table of Contents

Chapter 1 -Introduction and Basic Concepts	11
Economics at Work	12
The Firm – Objective, Operations, and Limitations (Review Item).....	12
Froeb and McCann’s Useful Ideas	14
Economic Profit, Economic Value Added and Time Value of Money	14
Nature of costs and measuring costs (Review Item)	14
Economic Value Added	15
Present Value Analysis.....	18
Net Present Value (NPV)	18
Optimization	19
Optimizing Techniques (Review Item)	19
Corporate Social Responsibility.....	19
NABE Code of Conduct.....	21
Chapter 2- Supply and Production	23
Organization of Production	24
Boundaries of the firm and transaction costs.....	25
Vertical Integration (Scenario 1)	26
Topics in the Supply Chain	27
Economies of Scale and Scope	30
Long Run Average Costs (Review Item)	31
Minimum Efficient Scale	31
Economies of Scope	32
Chapter 3-Estimating Cost Functions and Production Functions	33
Short-Run Cost Functions	34
Long-Run Cost Functions	34
Functional Form for Estimation	34

Production Functions (Review Item)	35
Translog Function (Scenario 1).....	37
Multi-Product Cost Function (Scenario 2).....	38
Practical challenges in Estimating Cost Curves.....	39
Learning curves.....	41
Learning Curve (Scenario 3).....	41
Cost-volume profit (breakeven analysis)	43
 Chapter 4-Financing the Firm.....	 47
Measuring the Cost of Capital	48
Project Finance.....	51
Choosing Among Risky Projects	54
 Chapter 5 --Analysis of Demand	 57
The Demand Function.....	58
Price Elasticity	58
Using Direct Estimation (Scenario 1)	59
Using a Linear Demand Function (Scenario 2).....	59
Using a Log-Log Demand Function (Scenario 3).....	60
Using the Logit Model (Scenario 4).....	61
Using the Multinomial Logit Model (Scenario 5).....	62
Using Individual Estimates and Aggregating Demand (Scenario 6).....	62
Other Elasticities	63
Income Elasticity.....	63
Advertising Elasticity.....	63
Estimating the effects of advertising using a Multivariate Log-Log (Scenario 7).....	63
Estimating and Forecasting Demand	68
Regression Model of Demand (Scenario 8)	69
Industry Demand to Forecast Sales (Scenario 9)	70
Other Types of Demand Models.....	71
Hedonic Demand Analysis (Scenario 10)	71
Conjoint Analysis (Scenario 11)	71
Accounting for Competitors with Discrete Choice Models (Scenario 12).....	72
Safety Checks	73

Chapter 6 -Pricing	75
The Basic Pricing Rule	76
Price Taking (Scenario 1).....	76
Price Setting (Scenario 2).....	76
Cost Plus Pricing (Scenario 3)	77
Complex Pricing Issues.....	77
1. Commonly owned substitutes	77
2. Commonly owned complements	77
3. Yield management.....	78
4. Promotional Pricing.....	78
Efficient Pricing	78
Perfect Price Discrimination (Scenario 4).....	78
Segmentation Pricing (Scenario 5).....	80
Two-part Tariff (Scenario 6).....	81
Other Pricing Strategies	81
Resale Price Maintenance	81
Predatory Pricing.....	81
Limit Pricing.....	82
Transfer Pricing.....	82
Pricing Abroad	82
Anticipating Currency Fluctuations (Scenario 7).....	83
Chapter 7-Market Structure and Strategic Behavior.....	85
Market Definition.....	86
Market Competitiveness.....	87
The Impact of Barriers to Entry	91
Strategic Commitment	91
Game Theory	93
Chapter 8- Regulation.....	101
The Need for Regulation.....	102
Antitrust	104

The Airline Industry (Scenario 1)	109
Video Delivery Market (Scenario 2)	110
Restraint of Trade	110
Vertical Restraints	111
Public Utilities	116
Analyzing Regulations	122
Cost Benefit Analysis.....	122
Chapter 9-Conclusion	125
The Role of the Economist in the Organization.....	126
Managing the Economic Functions	126
Interaction with Other Functional Areas.....	127
Marketing Your Services	127
Summary and Closing Remarks.....	127
Suggested Readings for Students.....	128
Supplemental Material and References.....	128
PowerPoint Presentation	130
