

The Down Syndrome Connection of Long Island

Invites all

Service Providers & Parents of children with Down syndrome

to attend an informative evening at

Good Samaritan's Center for Pediatric Specialty Care

Guest Speaker – Dr. Moris A. Angulo, MD

Pediatric Endocrinologist and Director of Medical Genetics, Winthrop University Hospital

Tuesday, January 14th, 2014

7:30 PM

655 Deer Park Avenue
Babylon
(631)321-2100

The Importance of Endocrine (Hormonal) Evaluation in Down Syndrome

Come and learn about potential problems with the endocrine system (thyroid dysfunction, diabetes, growth issues, PCOS, altered metabolism of vitamins) and how they can affect the development of a child with Down syndrome. Meet other parents as well and find out about local resources and events that are available to you and your child here on Long Island.

Please RSVP at connect@dscli.org , DSCLI on Facebook, or call Virginia at (631) 261-8332
