RE: Montgomery County Commission Candidate's Ashley Webb and Debbie Lieberman

Ms. Hesselgesser,

Greetings. This letter is regarding the recently taped League of Women Voters of Greater Dayton Area forum that was taped by the Miami Valley Cable Council yesterday.

Accordingly, it has been brought to my attention that the League is thinking about not airing the forum between Montgomery County Commission candidates Ashley Webb and Debbie Lieberman. I understand the reasoning is due to Mr. Webb bringing to light the issue of Ms. Lieberman's back taxes owed to the Federal government during an answer to a question.

Also, it has been brought to my attention that your organization is allowing Ms. Lieberman and/or by her campaign to review the taped comments from the forum for her or their approval.

I want to remind you that not airing candidates' comments is clearly partisan politics and allowing a candidate or their campaign to review the comments is also partisan. The League of Women Voters of Greater Dayton Area has a history of claiming that the organization is nonpartisan and does not support nor oppose any candidate and/or political party.

I strongly encourage you that all candidates' comments be aired in their entirety.

Respectfully,

A handwritten signature in black ink that reads "Rob".

Montgomery County Republican Party
