## Growth Report For Aury

Aury, male, DOB: June.16, 2006, was picked up on hall of first floor of Children's Hospital of . He was wearing white baby clothes with flowers, no other belongings. The search for his relatives by the public security department failed. During Aug. 28 2006 to Sep.18 2006 he was raised in police station of branch of public security bureau and on Sep.18 2006 he was sent to this institute to be adopted by police station. Since then he is living in this institute to this day. His name origin: "" is due to boys admitted in 2006 all have the surname of "". "": is hope that he will contributed to the society in the future. DOB was decided according to his physical growth.

Physical examination results of the child on admission: multiple arthrogryposis. Now he has been in the institute for 2 years and 6 months, at the age of 2 years 9 months. He is a lovely boy with clear eyes; he is extroversive, though a little shy when facing strangers. He is fond of watching cartoons, laughing happily during staring at the TV. Because of his illness, he loses the ability to walk. He was taken to outdoor by caretakers each day, he loves to play cars and always feel happy when seeing the car toys. Though car is his favorite, he'd like to share it with others little friends, and enjoy the happiness of playing together. He is now receiving the primary education; he could recite what he has learned very fast. He is very satisfied when gets praise from caretakers.

Aury has a routine life. He gets up at 6:00 and goes to bed at 20:00. He naps for 2 hours at noon every day, has twice milk with 220ml each time and 3 meals a day. He can eat all kinds of food and vegetables, but need a little soft. He can go to sleep alone with sound sleep, has no other bad sleeping habits. He is up to date on the immunization program.
