

Brian and Roberta Estes

We have two very lucky downsizers in our midst. Their Ford's Colony home sold in one day! Now Roberta and Brian Estes are awaiting the completion of their apartment at 5205. Roberta and Brian met in the fourth grade in East Millinocket, Maine, and were good friends but did not start dating until college. Roberta trained as a nurse in Massachusetts and Maine while Brian majored in civil engineering at the University of Maine. They married soon after graduation and Brian joined the Civil Engineer Corps of the Navy.

After twenty-four moves, they have one more to make – from the fourth to the second floor of the tower. Their son Sean and his family live in the Outer Banks where he is a home builder, and daughter Julie resides in Northern Virginia. There are six grandchildren to love and enjoy. Amid tours in California, Great Lakes, Puerto Rico, Florida, Madrid and Hawaii, Brian found time to do post-graduate work at the University of Illinois. After retirement he worked with Westinghouse at a plutonium plant in Richland, Washington, and then did engineering consulting. Roberta worked as a nurse at civilian and military hospitals and as a school nurse during their tours. After settling in Williamsburg, Roberta was an interpreter with Colonial Williamsburg and served at the Lackey Free Clinic for seven years. Brian is an Elder in his church and is a member of the Middle Plantation Club. The Estes have sailed large chartered boats in Maine and the Caribbean and are great enthusiasts for traveling the world. And one of Brian's likes is splitting wood! Now we know he's from Maine. Summer vacations in Maine are also on the calendar. We will all enjoy getting to this interesting and accomplished couple.

Welcome Home!
