PACE Financing

PACE (Property Assessed Clean Energy) provides access to long-term, low-interest capital for comprehensive building energy improvements and simplifies the upgrade process for commercial property owners and service providers. Counties in the Southern Tier Region are positioning themselves to help property owners to take advantage of the innovative financing and support available through this program. Improvements include clean energy additions such as efficient lighting, insulation, on-site solar electric, smart controls, chillers, energy storage, biomass, combined heat and storage.

Joseph M. Del Sindaco President Del Sindaco & Co., LLC PACE financing advisor to the Energy Improvement Corporation

76 West

Designed to jumpstart the clean energy economy in the Southern Tier, bringing new jobs, and increased sustainability to local communities, 76 West supports the growth of clean energy companies in the region. This \$20 million initiative is centered on a \$10 million business model competition. 76 West is open to any early-stage clean energy technology business that builds on the indigenous strengths and assets of the Southern Tier. Individual prizes will range from \$100,000 to \$1 million.

Michael Shimazu Senior Advisor for Business Growth & Innovation NYSERDA
