Business:

Vestry Voting Process

Discussion was held on the continued use of the Discernment Model of decision making by the vestry. The current diocesan standard is that votes are passed based upon a simple Majority Rules of the votes made by those present and voting at the time the vote takes place. In recent years, Trinity Cathedral vestry voting has been conducted based on the Discernment Model. Each model was discussed, including options of defining the vote as a super majority (either 2/3rds of the majority or 3/4ths of the majority) of voting members present at the time the vote is taken.

Mike Pinkerton moved that the vestry conduct voting by a Super Majority model where a super majority (2/3rds of members present and voting) are needed to pass any motion. Randy Cheek seconded this motion. The motion carried.

Based on this vote the Administration Committee will define the process and bring it to the vestry to be passed.
