

HIS EMINENCE AYANG RINPOCHE

His Eminence Ayang Rinpoche has been recognized by many great Buddhist Masters, including HH Dalai Lama, HH 16th Gyalwang Karmapa, and HH Dudjom Rinpoche to be the greatest Phowa Master living in the world today. He is the incarnation of Terton Choegyal Dorje, a Drikung Kagyu lama previously born as the Bodhisattva Ruchiraketu (a disciple of Shakyamuni Buddha and recorder of the famous Golden Light Sutra), Langdro Lotsawa (one of the great disciples of Guru Rinpoche) and Repa Shiwa Ö (a close disciple of Milarepa).

At the specific request of HH Dalai Lama and HH Karmapa, Rinpoche has been teaching Phowa internationally since 1963.

What is Phowa?

None of us can escape death. Many of us fear it. But death gives us the most precious opportunity: to transfer our minds directly to the blissful Pure Land of Buddha Amitabha. We can do this through the Tibetan Buddhist Vajrayana practice known as Phowa.

Phowa is the simplest and most direct way to attain enlightenment without a lifetime of disciplined spiritual practice, so it is very suited to the people of today who want clear results and a fast path. In Phowa training, the compassion of Buddha Amitabha, the power of a great Phowa Master's transmission blessing, and the devotion of the student combine to produce clear signs of accomplishment. The student can then face death whenever it comes with joyful confidence.
