4 Easy Steps to Students Reading on myON

1. Hand Out Usernames and Passwords (For all Students)

Distribute myON usernames and passwords to students. For students, the login username is the *HISD student network id (same as the iStation username)* and the password is *myon (all lower case)*.

2. Have Students Sign in at www.myon.com/login/ and Finish the Initial Assessments (For Students Who Have Never Used myON)

Please allow **5-8 minutes** for students to take the interest inventory and **25-30 minutes** for students to take the Lexile[®] placement.

Ask students to take these assessments seriously because they will affect their **“Recommended”** book list. The interest inventory can be changed later but not the initial Lexile[®] placement.

3. Focus on the Recommended List (For all Students)

After completing the interest inventory and Lexile[®] placement, be sure students read at least one book completely and click on the red **END** button to get credit for finishing the title.

As students use myON for independent reading, guide them to choose from the recommended titles found using the **“Recommended”** button on their myON home page.

4. Help myON Get to Know Students

Have students rate each book they read with 1 to 5 stars (1 being most disliked and 5 being liked the most) to improve myON recommendations. *When students rate and review books, they are eligible to win prizes in myON’s Summer Reading Contest!*
