## ***Buyer-to-Owner Assignments***

*These are automobiles our consulting clients are looking to purchase directly from an owner. They are confidential assignments. We are not an automobile dealer. Our assignment is to qualify the interested seller. Where a true interest exists, the interested seller is then connected with our client to complete the "Buyer-to-Owner" transaction. If you own and are selling any of the following cars, or have a car of similar character to these, please return to the home page and send us an email by clicking on the "Contact via Email" link.*
