

Youth Department: April

CAREERS AND TRADES

Last month the SSNC Youth Department focused on college readiness. Many of our teens were able to visit colleges, talk to guests on our college talk panels, learn about financial aid and more

Going to college seems like an automatic decision upon graduation from high school, but for others, they may feel as though they may not know

what they would like to do upon entering college. Here at SSNC, we see potential in all of our teens, so that is why we want to give our teens the opportunity to explore a number of options. This month we will be focusing on careers and trades. Our goal is to help the youth get a better understanding of what they really want to do after graduation.

Our teen programs this month will have guest speakers from many different facets of the workforce, provide the youth with some hands on opportunities in different career fields, visit business and organizations, practice resume writing and interview techniques and more.
