

## **PwC eExplore!**

### What is Explore?

How much do you know about your strengths and who you are? What do you want to do after college? How does understanding your values and purpose help you identify a potential career? PwC's Explore program is an experience you don't want to miss! Explore is a one day program focused on helping participants identify and analyze their strengths, values and passions to better understand who they are and what they want to do. Students will learn alongside PwC professionals who will provide real-life examples of how they have enriched their careers by aligning their strengths, values and passions personally and professionally. Participants will leave Explore with a stronger sense of who they are, who PwC is and what future opportunities might exist for them in professional services.
