

TrackOFF

TrackOFF is looking at hiring a Sales/ Marketing intern to help with outbound sales prospecting - helping us identify and make contact with computer repair and tech support shops who we can sign on as authorized reseller partners of TrackOFF privacy software (similar to reseller arrangements that security/ anti-virus providers).

This would be a paid position, with an hourly rate of \$15, plus commission incentive. This would be a part-time position, ideal for some with a flexible schedule, who has 5-10 hours each week to make phone calls during normal business hours and largely cold call-oriented. The main requirements are strong phone and email communication skills, general business acumen, and an entrepreneurial spirit. Someone with an interest in sales and business development who wants an opportunity to get involved in a very young and fast-growing company. Based on the growth and trajectory of the company, this role could have the potential to turn into a full time opportunity for a Senior graduating this Spring (or a part-time summer gig for a current Junior/ rising Senior).

For more information contact Will Jernigan at will@TrackOFF.com.
