

NetApp

NetApp is a FORTUNE 500 company with offices around the world. Leading organizations count on NetApp for software, systems, and services to manage and store their data. We help enterprises and service providers envision, deploy, and evolve their IT environments. At NetApp, our employees value our “company's friendly, caring culture and strong commitment to the community. Here, employees shoulder a lot of responsibility, but they're trusted to get the job done.

Our Enterprise Services Organization is looking to hire **Data Analysts** in our **Research Triangle Park** location. As a Data Analyst for our Enterprise Services Organization, you will provide direct support to our Global Support Account Managers (GSAMs) on top enterprise customer accounts. You will work closely with our GSAMs to prioritize business and customer needs and provide customer reports which are accurate and timely.

The position will require an

- Extensive use of Excel; working with functions such as Pivot Tables, VLOOKUP, etc.
- Ability to interpret data, analyze results using statistical techniques and provide on-going reporting
- Ability to acquire data from multiple data sources and then identify, analyze and interpret trends or patterns in the collected data sets
- And much, much more!
