

Meet our women who trade.

Please join us for a Women Who Trade LiveTalk, a live, interactive, virtual session, and hear our top female traders speak candidly about their experiences. It will provide you with a unique opportunity to hear them talk about their triumphs, their challenges, and how they achieved success on their terms. Many started with us as summer interns and are now driving our business forward.

We look forward to providing you with insight into our Women Who Trade program and hearing your questions.
