OneBeacon

Are you seeking an opportunity to utilize your database and programming skills across a wide-range of application technologies? OneBeacon Insurance Group is seeking a Developer to join our Corporate IT Team in the Salem, VA office. This position will work closely with customers, business analysts, and team members to understand business requirements and develop technical solutions. May 2016 college graduates are encouraged to apply!

What OneBeacon will offer you:
1. An opportunity to think like an owner and directly grow the business.
2. The ability to learn from an experienced team and increase your responsibility while working on web-based Underwriting and Policy issuance applications.
3. The feeling of accomplishment when solving problems and helping customers.
4. Great benefits including Medical, Dental, Life and Disability insurance, flexible spending accounts, 401K with company match, company funded ESOP, and competitive paid time off.

What you will be doing:
1. Building, maintaining and supporting web-based Underwriting and Policy issuance applications.
2. Collaborating effectively with others project members such as business analysts, QA testers, end-users and other developers to exceed the expectations of internal customers and owners.
3. Learning a myriad of systems and tools and participating in all phases of the full systems development life cycle.
4. Using your creativity to offer new solutions and introduce new ideas.

Requirements:
Should have some knowledge of the following:
1. Java Struts (MVC Framework)
2. Subversion (Source Control)
3. HTML, CSS, Javascript
4. MS SQL Server 2008 or above
5. SQL
   - Familiar with writing multi-table queries
   - Familiar with creating views, stored procedures, and functions

Additional Skills that are a plus:
1. Java JSF
2. VB.Net
3. C#.NET
   - Web Service development
4. SSRS
5. AngularJS
6. ASP.Net

Education and Experience:
Bachelor's Degree in Computer Science, Information Systems or other related field or equivalent work experience. The ideal candidate will have 0-3 years' experience.
