

WE DO AMAZING THINGS

Are You Ready?

Are you ready to grow — and ready for a great career? CSC knows that today's students are tomorrow's leaders. We are also a leader — a global leader of next-gen information technology services and solutions for our clients' business needs. We lead in our industry because we hire, train and retain the very best.

CSC will help you kickstart your career — through great opportunities for professional development, strong coaching and mentoring programs, and interesting projects to work on.

So come join our team!

We offer many internship, co-op, and full-time work opportunities for students interested in the federal government and commercial sectors. If you have a passion for any of the following areas, then CSC may be the place for you to grow your career:

- Business Analyst
- Applications
- Cybersecurity and Networking
- IT Services
- Computer Systems / Engineering
- Sciences

Company Profile: CSC is a global powerhouse in business and technology transformation. Our people help businesses, governments and communities solve their toughest challenges.

LEADING INNOVATIVE TRANSFORMATIONS AROUND THE WORLD

Market shifts and technology trends demand fresh thinking. We help clients capitalize on trends and anticipate what's ahead.

MANUFACTURING:

Implemented a new supply chain management solution for one of the world's most powerful and iconic brands

PUBLIC SECTOR:

Modernized one of the world's largest supply chains, streamlining military logistics support for a major branch of the U.S. Armed Forces

HEALTHCARE:

Improving standards of patient care by providing innovative solutions for a national healthcare system

BANKING AND CAPITAL MARKETS:

Leading core systems transformation at one of the world's largest banks

TECHNOLOGY AND CONSUMER SERVICES:

Centralized IT infrastructure for one of the largest diversified suppliers in the food-service industry

ENERGY AND NATURAL RESOURCES:

Reduced costs and increased resiliency of IT systems for a global chemical and energy client

INSURANCE

Managing the world's largest insurance application service program

TRAVEL AND TRANSPORTATION:

Designed and implemented a super-precise dispatching system for a major railway, keeping them on time and on track
